# Milk Bar® Trainer Bottle

The Trainer bottle is fitted with a Milk Bar Colostrum Teat to make training very simple. The teat is slightly softer and so the calf finds it easy. The same design as the Milk Bar Teat ensures that calves suckle correctly from Day 1. The handle is set at the correct angle for teaching young or weak calves.

Milk Bar Code 901100

Volume: 3L

Weight: 600gms

Length: 350mm

Height: 150mm

Width: 120mm
